WHO WE ARE

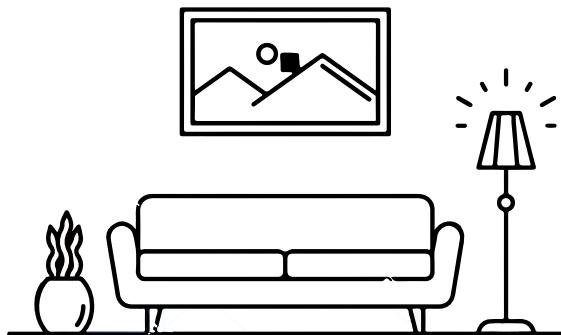

## OUR STORY

Two sisters born and raised in Egypt. Influenced by this country's art and culture. Always mesmerised by the allure of natural materials. Wood, stones, clay and many more. With our love for materials in mind and our country in heart we were driven to create a brand that represents the beauty of Egypt. Hence, Ellie Home Decor was born. A design studio that aims to create wondrous pieces, handmade by talented Egyptian artisans.

Our home accessories are created for your comfort. From decorative pieces to tableware. Each piece is handcrafted with care and will surely add an artistic look and cozy feel to your home.

## 1. INETRIOR DESIGN

From a quick wall refresh to a complete home makeover, our team of expert designers are here to help you put your vision into action. We offer different design services, and we'll work with you to strongly determine what will best suit your needs. No matter which package you pick, each service begins with a personal consultation in our store or in your home. Starting from there, we will be able to make our way into your comfort zone so we can bring your dream project to life.

## 2. CUSTOMISED DECORATIVE PIECES

Behind every product is a person who tells his own story, and we strive to create products with designs that leave an impact on its owner. Starting from a cushion that can change your living room's look; a frame that can add a historical touch to your wall or a vase that speaks out beauty and value in all the corners of your home, all the way to a shelf that carries lively accessories that spice up your life. All products are made from the finest tools and materials aiming at providing you with the best quality.

## THE GALACTIC AMPHORAS

Each and every piece of the galactic amphoras is inspired by the universal beauty and tells a complete different story than the other. The magical part about this collection is its mysterious color integration end result, using the same techniques in glazing but getting a different color and story each time.

# OUR COMMUNITY

As a local business, we at Ellie Home Decor realise the importance of community and local organisations that make a difference. From Egyptian artisans to business owners and everyone in between. We reach out and try to influence the lives of men and women, encouraging them to develop their talents and work on their dreams.

We totally support and are continuously inspired by their talents, passion and contributions to our community. These people make Egypt a better place to live and work in.

We also connect and relate to hard working women. Women with talents and strong willpower that are ready to work hard and make a difference in their lives and for their country. We are committed to ensuring that, at Ellie Home Decor, we encourage equality and empower women, by recognising and promoting their strengths and added value. We believe that encouraging and supporting one another is the only way to leap forward and succeed together!
